Summary

A recent Computer Science graduate with final CGPA 3.69 specializing in full-stack web development with proven skills in **React, TypeScript, PHP, HTML, CSS, JavaScript and Python**. Experienced in building and deploying web applications from freelance work and a comprehensive internship, with a strong ability to translate business requirements into functional and efficient software solutions.

Skills

Front-End — React, Angular, TypeScript, HTML, CSS, JavaScript

Back-End — Python, PHP, Java, SQL, Flask, Laravel

Developer Tools — SSH/CLI, Git, Cursor, Claude, Antigravity

Professional Skills — Communication, Problem Solving, Teamwork, Time Management, Logical Thinking

Professional Experience

09/2025 – Present

Freelance Web Developer
- Designed and launched modern, responsive websites using **React, TypeScript, and Tailwind CSS.**
- Collaborated directly with clients to translate business goals into functional applications.
- Improved website load times by implementing optimized **UI/UX** components.

03/2025 – 09/2025
Alor Setar, Malaysia

Full Stack Developer & IT Support Intern
Nurkamal Network Sdn. Bhd.
- Built and deployed **5 full-stack web applications**, improving workflow efficiency by 30%.
- Collaborated with cross-functional teams to optimize performance and deployment pipelines.
- Managed IT support and system configuration, reducing downtime by 25%.
- Performed QA testing and bug fixing to enhance system stability.
- Set up several IT related technologies such as PC, Access Points, Network Cabling, Server and Telephones.

Education

10/2022 – 09/2025
Alor Setar, Malaysia

Albukhary International University
Bachelor of Computer Science
CGPA : 3.69

Projects

Web Application Vulnerability Scanner
Tech Stack : *Python, Flask, Requests, BeautifulSoup*
- Developed a security tool in Python and Flask to detect common vulnerabilities such as SQLi and XSS.
- Designed a modular architecture featuring a web interface and detailed reporting capabilities.

Program Management System

Tech Stack : *React, TypeScript, PHP, MySQL*

- Engineered a comprehensive platform using React, TypeScript, and PHP with features like role-based access, document handling, budget tracking, and dashboards.

Enterprise Management System

Tech Stack : *PHP, MySQL, Bootstrap*

- Created an enterprise solution using PHP and MySQL that included modules for ticketing, quotations, staff/vehicle tracking, and real-time analytics.

Helpdesk System

Tech Stack : *TypeScript, PHP, MySQL*

- Built a ticketing system using TypeScript, PHP, and MySQL featuring user authentication, notifications, file attachments, and an analytics dashboard.

Awards

03/2024	**5G Pioneers Program** ⧉ *Ericsson Malaysia*

Organizations (Volunteer)
