KAUNG KHANT MG MG
Full Stack Developer

kaungkhant12359@gmail.com   https://xz3tt.dev   https://github.com/Irrfan47   +601137643617

Summary

A Computer Science graduate (**CGPA 3.69**) specializing in **full-stack development** with hands-on experience in React, TypeScript, PHP, and Python. Built and deployed real-world applications through freelance work and an internship, turning business requirements into scalable, production-ready solutions.

Skills

Front-End	— Angular, React, TypeScript, JavaScript, HTML, CSS, Tailwind
Back-End	— PHP, Python, Java, Flask, Laravel, Node.js, Express.js, SQL, MySQL, MongoDB
Developer Tools	— SSH/CLI, Git, Postman, Cursor, Claude
Professional Skills	— Communication, Problem Solving, Teamwork, Time Management

Professional Experience

09/2025 – Present   **Freelance Web Developer**
Delivered 2 production-ready client web apps using MERN Stack, PHP, and Tailwind.
Translated business requirements into functional features and clean UI.
Optimized website performance, improving load time and responsiveness.

03/2025 – 09/2025
Alor Setar, Malaysia   **Full Stack Developer & IT Support Intern**
Nurkamal Network SDN BHD
Built and deployed 5 full-stack web applications, improving workflow efficiency by **30%.**
Enhanced deployment pipeline and resolved performance bottleneck.
Provided IT support and system configuration, reducing downtime by 25%.
Performed QA testing, bug fixing, and system setup (servers, APs, cabling, PCs, telephony).

02/2022 - 10/2024
Alor Setar, Malaysia   **Officer - Logistics, Event Management, Sports**
AIU Myanmar Student Association (AMSA)
Managed logistics and operations for major student events.
Coordinated planning, scheduling, and communication for activities.
Organized sports activities, increasing student participation.

Education

10/2022 - 09/2025
Alor Setar, Malaysia   **Albukhary International University**
Bachelor in Computer Science
CGPA : 3.69

Projects

Web Application Vulnerability Scanner - *Python, Flask, Requests, BeautifulSoup* 🔗

Scanned web apps for SQLi and XSS using Python, Flask, Requests, and BeautifulSoup, generating detailed HTML reports for each scan

Program Management System - *React, TypeScript, PHP, MySQL* 🔗

Engineered a comprehensive platform using React, TypeScript, and PHP with features like role-based access, document handling, budget tracking, and dashboards.

Enterprise Management System - *PHP, MySQL, Bootstrap* 🔗

Created an enterprise solution using PHP and MySQL that included modules for ticketing, quotations, staff/vehicle tracking, and real-time analytics.

Budget Management System - *MERN Stack, Rest API* 🔗

A comprehensive web application for managing budgets, programs, and users. This portal facilitates the tracking of financial programs, document management, and user administration with role-based access control.

Certifications

22/11/2025	**Web Development Fundamentals** 🔗 *IBM*
09/04/2025	**5G Pioneers Program** 🔗 *Ericsson Malaysia*
